**Answer: C**

### **NEW QUESTION: 4**

Your company is making a strategy shift: from being focused on fulfilling customer requests for becoming the best cost dairy producer in industry. Its existing cost manufacturing cost system, however fails to capture the costs associated with handling special flavors, small production orders, and complex delivery and order processing options. Hence you've been assigned to supervise an existing project to develop a new time-drive, activity-based costing system that will capture the full complexity of the company's operations and gives managers new insights into the profitability orders, products, and customers. Senior management will use the information to enhance process efficiencies, negotiating new terms with customers, and attempt to win new business. You are taking over the project during the planning process group. Upon reviewing the project charter, you discover that eight individuals were requiring to sign-off the project charter in order to authorize the project. Which of the following should cause the MOST concern?

- A. Your ability to yield adequate authority to make resource allocation decisions regarding the project
- B. The ability to develop adequate cost and scope baseline
- C. The amount of time that will be spent on configuration

management due to the number of stake holders

**D.** The overhead that is required to notify the large number of stakeholders regarding changes that affect the project

**E.** The difficulty in determining who will serve on the change control board due to the number of stake holders.

**Answer: C**
