Answer: C

NEW QUESTION: 4

A company is creating a new system based on the Common Data Service (CDS).

You need to select the CDS features that meet the company's requirements.

Which features should you select? To answer, drag the appropriate features to the correct requirements. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

1. Parental : Any action taken on a record of the parenttable is also taken on the related child table records.
2. Cascade user owned: Perform the action on all referencing entity records owned by the same user as the referenced entity.
- 3.Referential: Any related records can be navigated to, and actions taken on one will not affect the other.
