NEW QUESTION: 1You are building a large, multi-tenant SaaS (software-as-a-service) application with a component that fetches data to process from a customer-specific Amazon S3 bucket in their account. How should you ensure that your application follows security best practices and limits risk

when fetching data from customer-owned Amazon S3 buckets?**A.** Have users create an Amazon S3 bucket policy that grants read-only access to the Amazon S3 bucket required by your application, and securely store the corresponding access keys in the database holding their account data.**B.** Have users create a cross-account IAM role with a policy that grants read-only access to the Amazon S3 bucket required by your application to the AWS account ID running your production SaaS application.**C.** Have users create an Amazon S3 bucket policy that grants read-only access to the Amazon S3 bucket required by your application and limits access to the public IP address of the SaaS application.**D.** Have users create an IAM user with a policy that grants read-only access to the Amazon S3 bucket required by your application, and store the corresponding access keys in an encrypted database that holds their account data.**Answer: B**

NEW QUESTION: 2After initial investigation, an IS auditor has reasons to believe that fraud may be present. The IS auditor should:**A.** expand activities to determine whether an investigation is warranted.**B.** report the possibility of fraud to top management and ask how they would like to proceed.**C.** report the matter to the audit committee.**D.** consult with external legal counsel to determine the course of action to be taken.**Answer: A****Explanation:**Explanation/Reference:Explanation:An IS auditor's responsibilities for detecting fraud include evaluating fraud indicators and deciding whether any additional action is necessary or whether an investigation should be recommended. The IS auditor should notify the appropriate authorities within the organization only if it has determined that the indicators of fraud are sufficient to recommend an investigation. Normally, the IS auditor does not have authority to consult with external legal counsel.

NEW QUESTION: 3Review the following screenshot and select the BEST answer.**A.** If a connection is accepted in Network-layer, it will not be matched against the rules in Data Center Layer.**B.** Data Center Layer is an inline layer in the Access Control Policy.**C.** By default all layers are shared with all policies.**D.** If a connection is dropped in Network Layer, it will not be matched against the rules in Data Center Layer.**Answer: D**

NEW QUESTION: 4**A.** Option E**B.** Option C**C.** Option D**D.** Option B**E.** Option A**Answer: C,E**
