So our company has decided to offer free trial study guide.

NEW QUESTION: 1

Which two server types are used to support DNS lookup? (Choose two.)

- A. authoritative name server
- B. file transfer server
- C. name resolver
- D. web server
- E. ESX host

Answer: A,D

NEW QUESTION: 2

You administer the Office 365 tenant for an organization. You assign Enterprise E5 licenses to all users. You observe that users share files from Microsoft OneDrive for Business storage in violation of organization policy.

You need to ensure that you receive alerts when users share anything from their OneDrive for Business storage.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A.** Create a new alert policy with a custom alert for a Sway activity.
- B.** Create a new alert policy with a custom alert for an access request activity.
- C.** Create a new alert policy with a custom alert for the shared file folder or site activity.
- D.** Start recording user and admin activities in the Alerts node of the Security&Compliance Center.
- E.** Create an alert in the OneDrive for Business client app.
- F.** Create a new alert policy with an elevation of privilege alert.

Answer: C,D

Explanation:

NEW QUESTION: 3

The Chief Technical Officer (CTO) has been informed of a potential fraud committed by a database administrator performing several other job functions within the company. Which of the following is the BEST method to prevent such activities in the future?

- A.** Mandatory Vacations
- B.** Job rotation
- C.** Separation of duties
- D.** Least Privilege

Answer: C

Explanation:

Separation of duties means that users are granted only the permissions they need to do their work and no more. More so it means that you are employing best practices. The segregation of duties and separation of environments is a way to reduce the likelihood of misuse of systems or information. A separation of duties policy is designed to reduce the risk of fraud and to prevent other losses in an organization.

NEW QUESTION: 4

You are a portfolio manager. You opened a portfolio and you refreshed the filter. However, some of the projects that were previously in the portfolio are no longer there.

What happened?

- A.** Your web interface license was revoked to allow other users

to interface with the projects.

B. The projects were deleted when the filter was refreshed.

C. You no longer have sufficient project-level security to view the "missing" project's data.

D. The value of the code assigned to the missing projects has changed.

Answer: C

Explanation:

Explanation/Reference:

If you choose to update Primavera activities that fall within a filter and choose to add new activities, only activities that meet that filter's criteria will be added.
