NEW QUESTION: 4

DRAG DROP

Answer:

Explanation:

You can use the Set-CSClientPolicy cmdlet with the EnableSkypeUI parameter to specify the client experience the users in your organization will see. To force the display of the Lync user interface when users launch the Skype for Business client for the first time, you should confirm that the value of EnableSkypeUI is set to \$False in the policy you are using. The registry update to display the Lync client experience the first time a user launches the Skype for Business client can be done using a Group Policy Object (GPO).
