So the S1000-010 latest dumps questions are compiled by them according to the requirements of real test, You can choose to accept or decline cookies, After your effective practice, you can master the examination point from the S1000-010 test question.

NEW QUESTION: 1

You develop a solution that uses an Azure SQL Database to store user information for a mobile app.

The app stores sensitive information about users.

You need to hide sensitive information from developers that query the data for the mobile app.

Which three items must you identify when configuring dynamic data masking? Each correct answer presents a part of the solution.

NOTE: Each correct selection is worth one point.

- A. Schema
- B. Column
- C. Table
- D. Index
- E. Trigger

Answer: A,B,C

Explanation:

Explanation

In the Dynamic Data Masking configuration page, you may see some database columns that the recommendations engine has flagged for masking. In order to accept the recommendations, just click Add Mask for one or more columns and a mask is created based on the default type for this column. You can change the masking function by clicking on the masking rule and editing the masking field format to a different format of your choice.
