We never let our customers wait

AWS-Certified-Machine-Learning-Specialty Latest Test Sample for a long time, We are a professional exam training company.

NEW QUESTION: 1

Which of the following statements is (are) true with respect to valuation impairments under the US GAAP?

I). An asset is deemed as impaired if its book value exceeds its expected discounted cash flows.

II). The amount of the write-down is equal to the difference between the asset's book value and the present value of its expected cash flows even if the fair market value is available.

III). The amount of the write-down must appear on the income statement as part of continuing operations.

IV). Once the impairment has been eliminated, the asset's book value may be written back up again to better reflect economic reality.

A. III and IV.

B. I and II.

C. III only.

Answer: C

Explanation:

I is incorrect because the rule stipulates that the book value of the asset must exceed its undiscounted cash flows.

II is incorrect because the amount of the write-down is equal to the difference between the asset's book value and its fair market value (if it is available).

IV is incorrect because once an asset is written down, it may not be written back up again, even as the circumstances turn favorable again.

NEW QUESTION: 2

According to the OSI reference model, Layer 2 LAN switch operates at Q.

A. data link layer

B. physical layer

C. application layer

D. network layer

Answer: A

NEW QUESTION: 3
