Answer: D

NEW QUESTION: 3

A customer is expecting delivery of the IBM DS8870 that was purchased through an IBM Business Partner. The customer recalls that the order included some additional priced features to enable Point-in-Time Copies to be created within the subsystem. The customer calls you to ask if there is anything that needs to be done to enable these extra features or if they will be available to him when the box is installed.

Which advice should be given to the customer?

- A. The IBM SSR will install the required licenses during the physical installation and that by the time the customer gets the subsystem, nothing additional will be required.
- B. The customer will be able to call the IBM support center after the SSR has completed the physical installation, and the required license keys will be forwarded.
- C. The customer will be able to use the IBM self-service portal to retrieve the required license keys and will be able to activate the features.
- D. The required features were included on the original order so that IBM manufacturing includes the required licenses at the factory and nothing additional will be required.

Answer: C

NEW QUESTION: 4
