NEW QUESTION: 1

Which statement about IS-IS adjacencies is true?

- A.** Adjacency formation between Level 1 routers must have different area IDs.
- B.** Adjacency formation between Level 2 routers must have different area IDs.
- C.** Adjacency formation between Level 1 routers must have the same area ID.
- D.** Adjacency formation between Level 2 routers must have the same area ID.

Answer: C

Explanation:

IS-IS hello PDUs establish adjacencies with other routers and have three different formats:

one for point-to-point hello packets, one for Level 1 broadcast links, and one for Level 2 broadcast links.

Level 1 routers must share the same area address to form an adjacency, while Level 2 routers do not have this limitation.

References:

http://www.juniper.net/documentation/en_US/junos15.1/topics/concept/is-is-routing-overview.html

is too broad in scope and incorrectly blocks traffic that you want to inspect.
