If the clients fail in the test and require the refund [156-565 Pass Guarantee](#) our online customer service will reply their requests quickly and deal with the refund procedures promptly.

You will get a high score with the help of CLF-C01 test online training.

**NEW QUESTION: 1**
Which of the following is TRUE about global temporary tables in Sybase IQ?
**A.** Table data is visible across sessions for all users and reboots.
**B.** Table data is visible across sessions for a user that inserts them.
**C.** Table data is visible to the session that inserts them.
**D.** Table data is visible across reboots for a user that inserts them.
**Answer: C**

**NEW QUESTION: 2**
CORRECT TEXT
Scenario: A Citrix Engineer must provide students in the Cardiology program at CCH with Windows 8 virtual desktops. These students will use hosted applications through Receiver. Personalization of the Windows 8 virtual desktops is NOT required.
Tasks:
1.Create the appropriate machine catalog and name it XD_POOLED 1.
2.Create 10 virtual desktops for students in the Cardiology program.
3.Ensure each virtual desktop is assigned 2 Virtual CPUs.
4.Set the memory size for the virtual desktops to 8 GB.
5.Use the Network 0 network interface card.
6.Create Active Directory computer accounts for the virtual desktops in the CCH Virtual Desktops organizational unit (OU).
7.Use the following account naming scheme for the virtual desktops: TrainingDesk001 - TrainingDesk010.
8.Create the virtual desktops from the WDK_8_1 master image.
9.Create the appropriate Delivery Group named CCH_Training_Desktops, and configure it according to the requirements above. Students in the Cardiology program are members of the Training Desktops user group.

**Answer:**
Explanation:
Find the solution with all steps below.
Explanation:
XenDesktop 7 Machine Catalog
1. In Desktop Studio we want to create a VM catalog,

2. Choose the OS type

3. We will be using VMs and Citrix Machine Creation Services, so the defaults are fine. 4. Use the default

5.Choose the master image WDK_8_1 master image
6.A great feature of XenDesktop is the ability to customize the catalog hardware at provisioning time, so you can offer different tiers of VMs from the exact same master image. No need to build up templates with the same OS and software stack, just to customize the vCPUs and memory specs.

7. OU -

8.On the summary screen you need to give the catalog a name and a description.
9.After you kick off the provisioning process you get a nice status. MCS first makes a copy of your master VM, then does its magic to create copies

10. When the provisioning is completed you now have one machine catalog entry

11. If you double click on the machine catalog it will bring up a search window with the individual VMs listed. You can now power them on and wait for them to show a "registered" status. If you click on an individual VM it will pull up even more details. If a user had an active session to the VM then you get a plethora more data.

As you can see, creating a machine catalog from a master template is quick and easy. Within Desktop Studio you can view a tremendous amount of detail about the catalog and individual VMs.

**NEW QUESTION: 3**
See the Exhibit and examine the structure of ORD table:
Exhibit:

Evaluate the following SQL statements that are executed in a user session in the specified order:
CREATE SEQUENCE ord_seq;
SELECT ord_seq.nextval
FROM dual;
INSERT INTO ord
VALUES (ord_seq.CURRVAL, '25-jan-2007,101);
UPDATE ord
SET ord_no= ord_seq.NEXTVAL
WHERE cust_id =101;
What would be the outcome of the above statements?
**A.** The CREATE SEQUENCE command would not execute because the minimum value and maximum value for the sequence have not been specified.
**B.** All the statements would execute successfully and the ORD_NO

column would contain the value 2 for the CUST_ID 101.
**C.** All the statements would execute successfully and the ORD_NO
column would have the value 20 for the CUST_ID 101 because the
default CACHE value is 20.
**D.** The CREATE SEQUENCE command would not execute because the
starting value of the sequence and the increment value have not
been specified.
**Answer: B**

**NEW QUESTION: 4**
Wählen Sie für jede der folgenden Aussagen Ja aus, wenn die
Aussage wahr ist. Andernfalls wählen Sie Nein. HINWEIS: Jede
richtige Auswahl ist einen Punkt wert.

**Answer:**
