NEW QUESTION: 1

An editable query has been created with the name triPeople - triRetired - Editable. The query designer wants to allow the user to be able to unretire multiple records. When the designer goes to set the state in the editable query she does not see the option to set this property. What could be the problem?

- A. The record has been set to be uneditable in the triRetired state, so an editable query cannot be created
- B. There are no editable fields in the triRetired state so this state is excluded.
- C. The developer has not set the editable property to Yes.
- D. The query type has been set to Report. This type of query is not editable.

Answer: C
